

HIST 388/395: Scientific Revolution

Final Performance Analysis

Hard Deadline: December 6th, 4:15 p.m.

Your final performance analysis should be a ~1 page (250-500 words) summary of your work in the course. It should include the following elements

- a statement of the grade you contracted for
- a discussion of each of the six contractual elements of this course and how you fulfilled them, including any difficulties you had in fulfilling them and any places where you were unable to fulfill them
- a discussion of how your final project team worked as a whole (if applicable), as well as the work you specifically did as your share of the final project
- a discussion of any work you did for the course that was above and beyond the requirements of your contract, with an indication of whether you believe that extra work to have made up for any deficiencies in filling the six contractual elements
- a final summary statement indicating which grade contract level you believe your final performance most closely matches to

Contract requirements can be found at: <https://2023scirev.jessicaotis.com/grading/>
